

CAREER OBJECTIVE

As a recent Information Technology graduate with moderate industrial experience, I am seeking to explore new opportunities in IT company where I can use and prove my expertise. As being graduated with an excellent academic record, I am well-organised, focused on task. With a strong technical background I am always ready to accept new challenges, enjoy learning new things and working with any level of the team member.

KEY STRENGTHS

- **Excellent communication skills:** I have demonstrated my excellent communication skill in my workplace. I have been involved in explaining the recipe of production to new team members and reporting the daily tasks and progress to the supervisors.
- **Ability to work as a team:** At my current workplace, I have been working in a team to accomplish given tasks in limited time. I have always motivated other team member and gained the efficiency. At my workplace we have to follow specific recipe and I ensure every team member is following the recipe to deliver quality product.
- **Ability to make correct decision:** At my current role I have been involved to make the decision related to the prioritization of work. I have made proper decision which has increased the work efficiency by managing the priority level of different tasks.
- **Excellent knowledge of technology:** I always try to get maximum information about the technology. As for example I have learned PHP, Java, Photoshop, MySQL, CSS, HTML and many more all by self-learning.
- **Multilingual:** Apart of English I know other language as well. Nepalese; My native language, Hindi; Very Similar to my native language.
